

Causes

Due to drugs, alcohol, trauma or reciprocal exchange of energy, animal or human spirit or other forces can enter the body of a person. That person can take on trauma or manipulation that belongs to another, creating voices, compulsive disorders, multiple personalities, Tourette syndrome and more. All these areas can be accessed and cleared with Holographic Kinetics Therapy Technique.

About Steve Richards

Steve Richards, the founder of Holographic Kinetics therapy technique is of Aboriginal descendant. He was awarded Certificate of Commendation by Suicide Prevention Australia. Steve was nominated for the Human Rights Medal award in 2005 and 2006. He was also nominated for Australian of the Year in 2007 as acknowledgement of the results for the outstanding achievements using Holographic Kinetics Therapy Technique.

Time for Change

Over 1200 students from over 42 countries have been trained in Holographic Kinetics Therapy Techniques and are obtaining the same results.

It is time we acknowledge the oldest race on the planet and allow the past atrocities, genocide, stolen generation and other trauma of the spirit that has passed through the cycles of time. It is time the genetic cellular trauma that has been passed down through the generation into the present day is cleared.

Drugs and medications will not clear these areas.

What to expect?

A Holographic Kinetics healing session takes approximately 1 hour where you will lie comfortably on a massage table, in a normal waking state. Through kinetics your spirit will indicate how, when, where and why you created that cause of any created effect, no matter how far back on your timeline this may have been created or no matter how far back on the genetic hereditary line it may have been created.

In a session we are looking for the cause of about 3 effects and it is advisable to bring to your appointment a list of issues you may wish to work on that are affecting you. However, don't go looking for your issues, remember where the focus goes the energy flows, as there may be suppressed memories or things that come to your awareness to be acknowledged, learned from, healed and let go of.

After the session, it is advisable to take it easy as your body could go through a defragging process over a 48-hour period.

Dreamtime Healing with Holographic Kinetics

Please take the time to consider the benefits of a session based on the most advanced indigenous knowledge and science of the past, incorporating the Laws of LORE.

What is Holographic Kinetics?

Holographic Kinetics (HK) is the most advanced and unique modality available today and transcends all other therapies. It is based on the ancient Aboriginal knowledge of the laws of LORE and the understanding that all things in nature are alive.

HK is not in any way likened to other therapies. It is not Hypnosis. It looks at the body multi-dimensionally, accessing cellular memory passed down from generations (including trauma) and the cause and effect of events. Thoughts and emotions set up in the past and present affect the cycles of the future. These events, thoughts and emotions are trapped in the body today, affecting our lives and causing us to continue repeating the cycles of life patterns within their own dimension of time, which we can become stuck in.

How does it work?

Our success is achieved by clearing trauma locked in events, thoughts and emotions. Until trauma is cleared from adverse events in our lives, we are continually affected today and in the future. Many therapies, while important, reach a point where they cannot continue, thus failing to get a successful result. Holographic Kinetics Therapy Technique then goes beyond the end point of other therapies and achieves a successful outcome.

Resisting a situation, or not allowing yourself to fully accept it, captures free-flowing universal energy, which will spiral inwards, becoming

How does it work? (Cont.)

trapped and transformed into potential energy. This potential energy then crystallizes and aligns itself with platonic geometry to build the first form of matter, which can eventually become sickness.

The crystal will lock into the stress or weak point of the body in the moment of trauma. Trapped energy is why some people can become emotionally explosive, as the energy swings from potential energy to explosive energy. Trapped energy can also eventually manifest as confusion, dysfunction, anti-social behaviour and all manner of other ills or disorders. By accessing the dimension where the energy was first trapped, we can release it and therefore let go of the issue. This will stop negative patterns from repeating as the cycle has been completed.

All about Spirit.

Spirit is often associated with 'spirituality', taking on a New Age or religious connotation – it is neither. Holographic Kinetics understands that all things in nature have a life force – known as a spirit. When this life force has departed, we call it dead, but anything with a life force (spirit) is alive and can be communicated with. Aboriginal and other cultures world wide have been aware of the significance it has in their lives for thousands of years.

The mainstream approach often fails because it does not recognize and accept the importance of spirit in its treatments. However, understanding the spirit is the key. Just as the soul (which is different from spirit) can be stuck in programs and beliefs of all life experiences, spirit can be stuck in a cycle of trauma from its past.

Holographic Kinetic Therapy Technique is able to access man's Spirit in order to clear it.

Who can be helped?

Any person suffering from the following should request assistance to be cleared:

- Attempted suicide or self-harm
- Emotional or compulsive disorders
- Anger, guilt or violence issues
- Voices in the head
- Depression, fear or shame
- Pain, anguish or trauma
- Drug or alcohol dependency issues
- PTSD (Post Traumatic Stress Disorder)
- Physical, emotional or sexual abuse
- Repeat offenders or stuck in time
- Tourette syndrome
- Paranormal activity
- Inter-dimensional interference

Repeating Patterns

Within our society, and particularly in the prison system we often hear the words *"I don't know why I keep doing the same things over and over."* These people are stuck in dimensions of repeat cycles of time and this can be cleared, with results occurring in that session.

Some of the most violent men have had their life turned around in one session by accessing the cause of the violence at its juncture and enfolding space/time upon that dimension. This then stops the cycle of continuation into the future from occurring.

We have people in Aboriginal communities that are stuck in the cellular trauma of the stolen generation that has been passed down the genetic heredity line and is affecting present day. All cellular memory can be accessed with Holographic Kinetics no matter how far back in time that dimension was created. Only when that dimension has been enfolded upon itself, will it cease to be – this is usually cleared in one session.
